**DETAILED ACTION**

**Response to Arguments**

1. Applicants' response to the office action (Paper No. 8) filed on July 19, 2001 has been entered and considered.
2. Applicants' response to the office action (Paper No. 8) has been fully considered but deemed persuasive in part.
3. The objection made in the previous office action has been withdrawn in view of Applicants' amendment (paper No. 8).
4. The rejection made under 35 U.S.C. 103(a) has been withdrawn in view of Applicants' arguments and amendment (Paper No. 8).

**New Grounds of Rejection**

- 5a. Claim 19 and 20 are objected for improper ending of the claims in step (e) by incorporation of a period. Correction is required.
- 5b. Claim 19 is objected to under 37 CFR 1.75 as being a substantial duplicate of claim 1.  
When two claims in an application are duplicates or else are so close in content that they both cover the same thing, despite a slight difference in wording, it is proper after allowing one claim to object to the other as being a substantial duplicate of the allowed claim. See MPEP § 706.03(k).

***Claim Rejections - 35 USC § 112***

6. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Art Unit: 1656

a) Claim 2 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. Claim 2 is unclear and confusing for reciting “in situ” generation of single stranded nucleic acids. Claim does not provide any source for in situ (in vivo or in vitro) generation of single stranded nucleic acids. The rejection may be overcome by amending the claim to recite clear identity of the term “in situ”.

b) Claims 7-8, 17 and 20 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. Claims 7-8, 17 and 20 unclear and confusing for reciting “at least a portion.....”. Claims do not provide what the term “at least a portion” specifies for. The rejection may be overcome by amending the claim to recite the clear identity of the term.

c) Claim 15 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. Claim 15 is unclear and vague for reciting “a partial degree of resistance to digestion”. Claim 15 is vague because it does not provide to what extent a partial degree of resistance to digestion it accomplishes for.

Claims 1 is allowable.

Claims 3-6, 9-14, 16 and 18 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.
